

NUURA

C A T A L O G U E

No light, No *Life*...

“Natural light is essential to all life. Current research on the biological effects of light shows that it affects our mood and energy level, and that it has a significant impact on our well-being and health. Consequently, awareness around decorating both public and domestic spaces with quality light is increasingly on the agenda to promote well-being”.

Sofie Refer – Creative Director, Nuura

A B O U T

Founded in 2017 with a vision to create sensuous lighting designs that enhance ambiance and transform spaces. Nuura means light and honour. The name reflects a commitment to honouring light as an essential element of life and a foundation of well-being. Rooted in Danish design traditions and inspired by nature, Nuura creates versatile lighting collections for both private and public spaces. The brand's essence lies in a modern reinterpretation of the chandelier, symbolizing generosity and abundance. Nuura cherishes the art of connection, nurturing lasting relationships, both internally and externally. Today, Nuura stands as a global lighting brand, collaborating with some of the world's most esteemed designers. From its Copenhagen headquarters, Nuura strives to create aesthetic, timeless lighting solutions that enrich life and bring value to daily living. Guided by the belief that light is a vital source of well-being, Nuura creates timeless lighting designed to last for generations.

OUR WORLD OF LIGHT

Rooted in Denmark, where the dark months are long and cold, we understand the profound importance of light for our well-being. Light is essential for our health and plays a fundamental role in our lives. It influences our circadian rhythm, energy levels, mood, and overall health. With this understanding, we design aesthetic lighting collections for private homes and public spaces.

Nuura's vision is to enhance well-being through aesthetic, high-quality lighting. With deep respect for nature's colours and organic forms, we create authentic lighting that contributes to a brighter life. Focusing on long-lasting relationships, both internally and externally, we are building our brand globally through original, high-quality product collections that bring light, functionality, and aesthetics into people's lives.

F A M I L I E S O F L I G H T

A S T E E A C O L L E C T I O N

The Asteea collection draws its inspiration from flowers, where form and structure merge in organic harmony. The bell-shaped shades with natural, varying striations create a dynamic interplay of light and shadow, giving the design a sensuous and dynamic dimension. The shades reflect the surrounding light, adding depth and warmth to the space – much like flower buds that capture and gently diffuse sunlight. The shades are made from recyclable acrylic, which emphasizes the design's lightness – both in its physical form and visual expression. The integrated LED technology provides a soft, indirect light that illuminates without glare, complementing the lamp's organic character. The arms in golden brass add a classic elegance to the design, enhancing the play of light, while the organic curves reinforce the flower-inspired design. The Asteea collection combines advanced LED technology with a poetic aesthetic, creating an elegant lighting solution that balances functionality with a sensuous expression.

MIIRA COLLECTION

The Miira collection features a timeless expression rooted in Danish design tradition, emphasizing simplicity and functionality. Every lamp in the collection is crafted with mouth-blown glass and processed metal featuring soft, rounded shapes, that give the collection a balanced and harmonious character. With the chandelier as the collection's centerpiece, Miira offers a range of circular chandeliers as well as various pendant chandeliers. These are complemented by single pendants, table lamps, and wall lamps, making the Miira collection highly versatile and suitable for private homes and professional interiors.

FLORII COLLECTION

The Florii collection is inspired by the graceful fall of leaves, where their form and expression transform as light dances across them. The collection is a harmonious union of organic yet modern aesthetics where each lamp radiates a soothing elegance that integrates with any interior space. The Florii lamps embody natural grace, offering a soft presence that captures attention while adding a poetic and artistic touch to any space. The designer, Jessica Vedel, explains that she was inspired by the sunlight filtering through the foliage, and from there, the creative process began - from hand-drawn sketches to designs taking form through paper models, resulting in a complete collection that captures the essence of nature's beauty.

LIILA COLLECTION

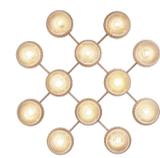

The Liila collection draws inspiration from the many facets of sunlight. From the centrepiece, the collection unfolds into large and smaller wall and ceiling lamps, where the mouth-blown glass globes allow a dynamic shift in the expression of the lamp. Referencing the sun, the optic glass globes reflect how light dances on the surface of the water, while the opal glass evokes the soft, diffused light on an overcast day. As an addition to the Liila collection, designer Sofie Refer has breathed new life into the range with a rippled backplate known as the Liila Muuse series. Paired with the soft light, it effortlessly illustrates how the interplay of light and shadow can be found everywhere around us.

PETALII COLLECTION

Petalii means bloom and speaks to the form and the essence of the collection where each lamp shows a flower stretching itself uniquely towards the light. The collection is built around a chandelier with 10 white, flower shades that has been translated into a pendant and a floor lamp presented in a minimalistic and sensuous design language. The simple form of the collection offers the possibility to create a specific feeling or environment and can be used in different spaces, from private homes to larger interior projects.

SASI COLLECTION

The Sasi collection merges aesthetics with a soft, organic design language, characterized by round, harmonious shapes. The large, satin finished lampshade diffuses the light gently, enhancing the sense of indirect illumination, while the small, mirrored shade creates detailed reflections that interact with the surrounding space. A distinctive design detail is the contrast between the surfaces: satin and mirror finishes, which give the collection a subtle yet dynamic expression. The lamp is designed for the wall, and with its slim depth and integrated LED light source, it demonstrates how aesthetic and modern design can seamlessly blend with functionality.

A P I A L E S C O L L E C T I O N

The Apiales collection is inspired by umbellifer flowers. The collection features single pendants, wall lamps, and chandeliers with 6, 9, or 18 mouth-blown glass globes. From a specially produced canopy, the chandelier's arms unfold like flower stalks, bringing the vibrancy of nature indoors. Crafted with precision and without visible screws or welds, the Apiales collection reflects the simplicity and tranquility of nature. With different sizes and variants, the collection is suitable for various uses in private homes and commercial spaces.

BLOSSI COLLECTION

Inspired by the sunlight on the vibrant leaves in the forest bed, the Blossi collection captures the essence of autumn's golden light. Its rounded, mouth-blown glass shade and minimalist form draw on motifs from the Danish design tradition and is designed to create a warm, gentle glow to the interior design. The collection ranges from chandeliers to wall, table and floor lamps where each piece features a specially developed LED disc, positioned to reflect the soft, indirect light within.

A N O L I C O L L E C T I O N

The Anoli collection captures the tranquillity of raindrops on a rainy September day. Each piece in the collection, from softly tapered pendants to refined chandeliers and spotlights, expresses a sense of calmness and simplicity with references to nature. The pendants and chandeliers feature hand-blown glass droplets in white opal glass or transparent glass with a warm, golden hue achieved through a unique, hand-painted lustre. A droplet shaped metal socket appears through the transparent glass, emphasizing the shape of the mouth-blown glass.

The spotlights feature a radiating tranquillity through finely sculpted double-sided metal shades, concaved to reflect the light within. Designed for residential and commercial spaces, these high-lumen spotlights echo the droplet forms of the collection, combining glare-free task lighting with refined aesthetics.

R I Z Z A T T O

C O L L E C T I O N

The Rizzato collection captures the essence of light's transformative power embodied in a large cluster chandelier, pendants, and ceiling lights. As the soft, inviting light spreads through the mouth-blown opal shades, artistic aesthetics and functionality unite in perfect harmony. Each lamp provides a powerful, all-around light, while also being dimmable to gather a room and create calm zones within the interior. The collection reflects the world-renowned architect and lighting designer Paolo Rizzato's dedication to creating lighting that not only enhances the atmosphere of a space but also serves as a timeless expression of form and function.

The Outdoor collection is designed to bring the warmth and sensuousness of indoor lighting to outdoor spaces. Designed with an IP54 rating, the Outdoor collection is specifically made for exterior use, offering durability and protection against the weather while maintaining the design of the Liila and Miira collections. The collection is available in two finishes - dark bronze and black - providing flexibility for diverse scenarios. The lamps are available with either opal white glass, which provides a smooth and soft light, or optically clear glass, offering a more striking appearance. The mouth-blown glass globes create a unique, warm, and inviting light for your entryway, terrace, or balcony, ensuring a seamless transition between indoor and outdoor spaces.

THE DESIGNERS

Sofie Refer

Sofie Refer is an internationally acclaimed Danish lighting designer. Her work is deeply rooted in the Scandinavian design tradition, reverent to nature and the elegance of simplicity. While honouring tradition, she looks to challenge modern perceptions, keenly exploring the bounty and benevolence of her surroundings, which she translates into her lighting designs.

Paolo Rizzatto

Paolo Rizzatto, a globally acclaimed architect and lighting designer, brings his expertise and passion for chandeliers to the Rizzatto collection. Paolo has created a collection that balances artistry and functionality. Soft, inviting light diffuses gently through the mouth-blown opal white glass. The designs reflect Rizzatto's dedication to create lighting that not only enhances the ambiance of a space but also serves as a timeless expression of form and purpose.

Rick Tegelaar

The Dutch designer Rick Tegelaar has a creative process of redefining materials and developing innovative product designs, which has formed the Sasi collection for Nuura. Rick Tegelaar was born in Rotterdam in 1986 and graduated with honour in product design from ArtEZ Academy, Arnhem in 2011. Since then, he has worked as an independent designer from his atelier and design studio, working on self-initiated and commissioned bespoke projects..

Nika Zupanc

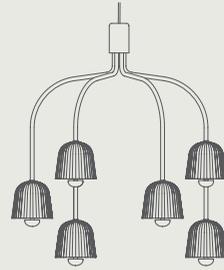

Nika Zupanc's design ethos is a delightful paradox. She fearlessly challenges conventions while remaining faithful to familiar forms. At the core of her design philosophy lies the quest for an icon—an identifiable shape, colour or material reimaged into tangible objects with poetic sentiment. The Petalii Collection for Nuura is a prime example of this philosophy, offering timeless and elegant lighting solutions that defy expectations, spark emotions and break the boundaries of conventional design.

Jessica Vedel

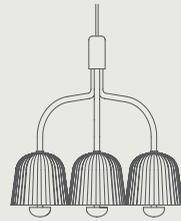

Danish interior and product designer, Jessica Vedel, crafts elegant spaces, furniture and accessories for both private homes and commercial establishments, seamlessly blending functionality with creativity. She creates designs that are rooted in quality materials and characterised by a sculptural design language. Reflecting her commitment to enhancing everyday spaces with timeless and refined elements, she is deeply influenced by her Danish heritage.
